A DAHON DIVISION

DISTRIBUTED IN GREECE BY:  
 MOLHO BROS Co.

Nea Santa/Industrial Zone 61100 Kilkis  
 Tel: +30-23410-64111  
 Http://http://www.molho.com

Dear Customer:

I have been involved with the design and promotion of folding bicycles for almost 30 years, even before I quit Hughes Aircraft Research Labs in 1981. Now, folding bicycles are everywhere, especially Dahon's.

But my objective in life is more than that. I want to contribute even more to ecological mobility. That's why Dahon continues to invest prominently in related R/D. That has resulted in our successful technological sharing program in recent years, and in the introduction of our much acclaimed e-bikes last year, for example. More new eco technology is to come.

Dahon folding bikes are a true leader in the Bicycle Industry Worldwide (try searching for "Dahon, bicycle" in Google). Dahon products are most successful so far with IBD's serving the upper echelons of the Developed World. But what about the lower echelons served by the mass merchants, and the Developing World which generally can afford less expensive products. These massive numbers of people need to go green too. Folders for the masses would truly make a difference, if Dahon is to fulfill its mission of helping to change Man's habits of mobility.

That's why a new division has been founded--to address these Mid- and low-range markets.

ECOSMO has two meanings: It means ecological and economical mobility. It also means Ecosm on the Move. "Ecosm" is a new word, but it is bound to be popular.

Products by Ecosmo Division will be focused on Low-mid markets. Ecosmo will handle Dahon's existing second brands such as Newton and Yeah!, as well as most ODM, CKD, and technology licensing programs. In order to save costs for you, the Ecosmo division is operated directly from our factory in China under unitary Dahon Group policy. We are accountable for our products, regardless of price.

If you are looking for well designed, well built, well serviced, and marketable folding bikes and ebikes, get them from the leader--the Dahon Group. And if, additionally, you are buying for mass merchants, the Developing World, CKD, and/or ODM, get it from ECOSMO!

Dahon Technologies, Ltd.
